

# STOCK ALBUTEROL FOR SCHOOLS ONLINE TRAINING CURRICULUM

## BEFORE YOU BEGIN:

- Users should enable pop-ups and update Flash Player on their operating system
- If the training modules do not play properly, it is probably a web browser issue
  - Internet Explorer is a good browser option to use for this training
- If for any reason the training becomes stuck or stops playing, exit completely out of the browser and sign back in to the CPH Moodle website
- For any technical issues with the online training curriculum, please contact **Erich Healy** via email: [erichh@email.arizona.edu](mailto:erichh@email.arizona.edu), **Htay Hla** via email: [hlla@email.arizona.edu](mailto:hlla@email.arizona.edu).

## INSTRUCTIONS FOR NEW USERS:

To access the online training curriculum, use the following link: <https://moodle.publichealth.arizona.edu/enrol/index.php?id=247>

The link will take you to the training page located on the CPH Moodle site:

The screenshot displays the Moodle interface for the 'Stock Albuterol Inhaler Training for School Personnel' course. The header includes the CPH Moodle logo and navigation links. The left sidebar shows a navigation menu with options like Home, Site pages, Current course, Stock Inhaler, and Courses. The main content area is titled 'Stock Albuterol Inhaler Training for School Personnel' and includes an 'Enrollment options' section. This section provides a course description, learning objectives, target audience, tier(s) and competency domain(s), duration, continuing education information, format, creation/update date, authors, and presenter information. At the bottom, there is a 'Self enrollment (Student)' button and a message stating 'Guests cannot access this course. Please log in.' with a 'Continue' button.

### Stock Albuterol Inhaler Training for School Personnel

#### Enrollment options

**Stock Albuterol Inhaler Training for School Personnel**

**Course Description**  
Asthma is life-threatening when students do not have the tools to manage symptoms effectively. The stock albuterol inhaler program provides an albuterol inhaler to be kept in the school health office (e.g., stock albuterol) in the event that a student is experiencing respiratory distress and does not have access to their own rescue inhaler. This e-learning course provides mandatory training for school personnel designated to administer the stock albuterol inhaler.

**Learning Objectives**  
This training has been developed to assist in teaching school staff about asthma and administration of the stock albuterol inhaler. After completing the course, learners will be able to:

- Understand the basic pathophysiology of asthma and identify potential asthma triggers.
- Explain how quick relief medications (e.g., albuterol) work to treat respiratory distress.
- Recognize mild-moderate and severe respiratory distress.
- Demonstrate the correct technique for administering a metered dose inhaler with a spacer or valved-holding chamber.
- Determine the course of action for managing mild-moderate and severe respiratory distress.
- Describe maintenance of the stock rescue inhaler.

**Target Audience:** Educators/Trainers, Nurses  
**Tier(s) and Competency Domain(s):** Tier 2 - Community Dimensions of Practice Skills  
**Duration:** 45 minutes  
**Continuing Education Information:** Pending  
**Format:** Web-based training, Self-study  
**Created/Updated:** August, 2017  
**Authors:** This course is the result of a collaboration between the WRPHTC, the American Lung Association in Tucson Arizona, the Pima County Health Department and The Mel and Enid Zuckerman College of Public Health at the University of Arizona.  
**Presenter:** Allison Thomas, MPH

## Is this your first time here?

Hi! For full access to courses you'll need to take a minute to create a new account for yourself on this web site. Each of the individual courses may also have a one-time "enrollment key", which you won't need until later. Here are the steps:

1. Fill out the New Account form with your details.
2. An email will be immediately sent to your email address.
3. Read your email, and click on the web link it contains.
4. Your account will be confirmed and you will be logged in.
5. Now, select the course you want to participate in.
6. If you are prompted for an "enrollment key" - use the one that your teacher has given you. This will "enroll" you in the course.
7. You can now access the full course. From now on you will only need to enter your personal username and password (in the form on this page) to log in and access any course you have enrolled in.

[Create new account](#)

4) Complete the new account information.

COPH Moodle 3.0.4 Site: account confirmation   x

 **Htay Hla** <hhla@email.arizona.edu> 7:59 AM (13 minutes ago) ☆  

to me ▾

Hi Ashley Lowe,

A new account has been requested at 'COPH Moodle 3.0.4 Site' using your email address.

To confirm your new account, please go to this web address:

<https://moodle.publichealth.arizona.edu/login/confirm.php?data=VQ2FbvqqdWRgbhC/lowe%2Eashleyanne%40gmail%2Ecom> 

In most mail programs, this should appear as a blue link which you can just click on. If that doesn't work, then cut and paste the address into the address line at the top of your web browser window.

If you need help, please contact the site administrator,

Admin User

Stock Albuterol Inhaler Training for School Personnel

Your progress

Introduction

Introduction/Course Summary

Asthma is life-threatening when students do not have the tools to manage symptoms effectively. The stock albuterol inhaler program provides an albuterol inhaler to be kept in the school health office (e.g., stock albuterol) in the event that a student is experiencing respiratory distress and does not have access to their own rescue inhaler. This e-learning course provides mandatory training for school personnel designated to administer the stock albuterol inhaler.

Learning Objectives

This training has been developed to assist in teaching school staff about asthma and administration of the stock albuterol inhaler. After completing the course, learners will be able to:

- Understand the basic pathophysiology of asthma and identify potential asthma triggers.
- Explain how quick relief medications (e.g., albuterol) work to treat respiratory distress.
- Recognize mild-moderate and severe respiratory distress.

CORE COMPETENCIES

- (Tier 2) Distinguishes the roles and responsibilities of governmental and non-governmental organizations in providing programs and services to improve the health of a community
- (Tier 2) Maintains relationships that improve health in a community
- (Tier 2) Uses community input for developing, implementing, evaluating, and improving policies, programs, and services
- (Tier 2) Explains the ways assets and resources (e.g., Boys & Girls Clubs, public libraries, hospitals, faith-based organizations, academic institutions, federal grants, fellowship programs) can be used to improve health in a community
- (Tier 2) Advocates for policies,

## INSTRUCTIONS FOR RETURNING USERS:

1) To access the online training curriculum, use the following link:

<https://moodle.publichealth.arizona.edu/enrol/index.php?id=247>

The link will take you to the training page on the **COPH Moodle** site:

The screenshot shows the Moodle interface for the 'Stock Albuterol Inhaler Training for School Personnel' course. The header includes the COPH Moodle logo and navigation links. The left sidebar contains a 'NAVIGATION' menu with links to Home, Site pages, Current course, Stock Inhaler, and Courses. The main content area displays the course title and 'Enrollment options'. Below this, the 'Course Description' states that asthma is life-threatening and that the stock albuterol inhaler program provides an albuterol inhaler to be kept in the school health office. The 'Learning Objectives' section lists six points: understanding asthma pathophysiology, explaining quick relief medications, recognizing mild/moderate/severe respiratory distress, demonstrating correct technique for administering a metered dose inhaler, determining the course of action for managing mild/moderate/severe respiratory distress, and describing maintenance of the stock rescue inhaler. The 'Target Audience' is Educators/Trainers, Nurses. The 'Tier(s) and Competency Domain(s)' is Tier 2 - Community Dimensions of Practice Skills. The 'Duration' is 45 minutes. The 'Continuing Education Information' is Pending. The 'Format' is Web-based training, Self-study. The 'Created/Updated' date is August, 2017. The 'Authors' are the WRPHTC, the American Lung Association in Tucson Arizona, the Pima County Health Department and The Mel and Enid Zuckerman College of Public Health at the University of Arizona. The 'Presenter' is Allison Thomas, MPH. At the bottom, there is a 'Self enrollment (Student)' section with a message: 'Guests cannot access this course. Please log in.' and a 'Continue' button.

2) Click “*Continue*” located on the bottom of the page.

This block provides a detailed view of the course information and the 'Continue' button. The course information includes: **Target Audience:** Educators/Trainers, Nurses; **Tier(s) and Competency Domain(s):** Tier 2 - Community Dimensions of Practice Skills; **Duration:** 45 minutes; **Continuing Education Information:** Pending; **Format:** Web-based training, Self-study; **Created/Updated:** August, 2017; **Authors:** This course is the result of a collaboration between the WRPHTC, the American Lung Association in Tucson Arizona, the Pima County Health Department and The Mel and Enid Zuckerman College of Public Health at the University of Arizona; **Presenter:** Allison Thomas, MPH. Below this information is a section titled 'Self enrollment (Student)' which contains the message 'Guests cannot access this course. Please log in.' and a 'Continue' button. ### Is this your first time here?

Hi! For full access to courses you'll need to take a minute to create a new account for yourself on this web site. Each of the individual courses may also have a one-time "enrollment key", which you won't need until later. Here are the steps:

1. Fill out the [New Account](#) form with your details.
2. An email will be immediately sent to your email address.
3. Read your email, and click on the web link it contains.
4. Your account will be confirmed and you will be logged in.
5. Now, select the course you want to participate in.
6. If you are prompted for an "enrollment key" - use the one that your teacher has given you. This will "enroll" you in the course.
7. You can now access the full course. From now on you will only need to enter your personal username and password (in the form on this page) to log in and access any course you have enrolled in.

[Create new account](#)

5) Follow steps 9-15 of Instructions for New Users located on pages 7-12 of this document.
